RECOVER

Step up your fitness game with the most innovative advancements in recovery technology.

Now you no longer need to head into a physical therapist's office to benefit from muscle stimulation. **Marc Pro** has developed an innovative muscle stimulation machine that helps to improve and facilitate muscle performance by decreasing recovery time, soreness, and fatigue. Any athlete or active person can benefit from this handy gadget. **\$649.95, MarcPro.com**

All the rage in fitness circles these days, the **HyperIce Vyper VGI** is a vibrating foam roller beloved by athletes. It's two times more effective than your average foam roller and helps to loosen and lengthen muscles, while increasing flexibility and reducing muscle soreness and stiffness. **\$199.99, HyperIce.com/Vyper**
